## ONE PERSON DISPLACED AFTER TRAILER FIRE

One man was displaced this morning after a fire damaged his trailer. Golder Ranch firefighters responded to the 2500 block of East Della Roccia at approximately 10:20 AM and found a travel trailer with smoke and flame coming from the roof. The trailer sat on a residential lot and had an attached wooden awning that also began to burn as the fire advanced. Crews had the fire out in approximately 10 minutes. The resident of the travel trailer was treated on the scene by Golder Ranch Fire Paramedics for breathing problems and released after refusing transport.

Golder Ranch inspectors are on scene investigating the cause of the fire, but preliminary indications point to a malfunctioning appliance. There is no estimate yet on the dollar amount lost as a result of this incident. The resident of the travel trailer is being taken in by neighbors and the Red Cross is assisting with obtaining his medications.

Golder Ranch Fire District would like to remind everyone to check your smoke detectors and their batteries annually. For more information on this and other safety tips, please visit our website at [www.grfdaz.gov](http://www.grfdaz.gov).
