PEDI-PART

Pediatric Prehospital Airway Resuscitation Trial

PEDI-PART REMINDERS

RECOGNIZE	RANDOMIZE	REPORT

RECOGNIZE

Recognize an eligible participant by checking the inclusion and exclusion criteria below:

Inclusion Criteria:

- ☑ At least 24 hours old and < 18 years old
- ☑ Cardiopulmonary arrest, major trauma or respiratory failure
- ☑ Life-saving care initiated or continued by Pedi-PART EMS Personnel as part of a 911 response
- ☑ Requiring active airway management (BVM or higher).

Exclusion Criteria

- ☒ Prisoners
- ☒ Pre-existing tracheostomy
- ☒ Do-not-resuscitate/do-not-intubate
- ☒ Visibly or known pregnant
- ☒ Initial advanced airway attempt by non-Pedi-PART EMS agency
- ☒ Interfacility transports

RANDOMIZE

Randomize the eligible participant by following the randomization schedule below:

Randomization Anchor Time:

Randomization will be consistent for 24 hours following the above anchor time (i.e. if odd day, use SGA from anchor time of odd day until anchor time of the next day).

Odd/Even Day Assignment:

Scan here to verify airway assignment.

ODD: BVM +SGA | 01 | 02 | **EVEN:** BVM ONLY

Note there may be 2 consecutive odd days in a row *(i.e. March 31 & April 1).*

Patient safety comes first; if the assigned airway technique does not work despite troubleshooting, use another method.

REPORT

Report the enrollment by completing the Paramedic Self Report (PSR) by scanning the QR code below:

Note that your agency may have incorporated the PSR into your ePCR system. If this is the case then scanning and completing via the QR code is not required.
